

# Easy Wax

## Safety Data Sheet

according to the Hazard Communication Standard (GHS) 1910.1200) HazCom 2012  
Date of Issue: 07/14/2015 Revision date: 07/14/2015 Version: 1.0

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product name : Easy Wax  
Product code : No data available

Use of the substance/mixture : Flatwork Finisher Lubricant

Easy Wax Products  
4500 Augusta BLVD  
Chicago, IL 60651

Emergency number : (773) 276-4800

### SECTION 2: Hazards identification

GHS-US classification

Not classified.

GHS-US labelling

No labelling applicable.

2.3. No additional information available

2.4. No additional information available

Not applicable.

### SECTION 3: Composition/Information on Ingredients

Not applicable

None by Hazcom 2012 criteria.

3.1. First-aid measures after inhalation

- : If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.

First-aid measures after skin contact

- : If irritation occurs, flush skin with plenty of water. Get medical attention if irritation persists.

First-aid measures after eye contact

- : In case of contact, immediately flush eyes with plenty of water. Remove contact lenses, if worn. If irritation persists, get medical attention.

First-aid measures after ingestion

- : If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

3.2. Symptoms/injuries after inhalation

- : May cause respiratory tract irritation.

Symptoms/injuries after skin contact

- : May cause skin irritation. Symptoms may include redness, drying, itching and cracking of the skin. Hot product may cause severe thermal burns.

Symptoms/injuries after eye contact

- : May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Symptoms/injuries after ingestion

- : May be harmful if swallowed. May cause stomach distress, nausea or vomiting.

Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

### SECTION 5: Firefighting measures

Suitable extinguishing media

- : Dry chemical, carbon dioxide, water fog, foam or sand.

Unsuitable extinguishing media

- : Do not use water jet.

## Safety Data Sheet

according to the Hazard Communication Standard (GHS) 1910.1200, HazCom 2012

Special hazards arising from the substance or mixture  
: Products of combustion may include, and are not limited to, oxides of carbon, oxides of nitrogen, and oxides of sulfur.

Fire hazard

Advice on fire fighting  
: Keep upwind of fire. Wear full fire fighting turn-out gear (full bunker gear) and respiratory protection (SCBA).

Protection during firefighting

### SECTION 6: Accidental release measures

Personal protection, protective equipment and engineering controls  
: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

General measures

Methods for containment and clean up  
: Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).

For containment

Methods for cleaning up  
: Spills of this material are a slipping hazard. Scoop up material and place in a disposal container.

See section 8 for further information on protective clothing and equipment and section 13 for advice on waste disposal.

### SECTION 7: Handling and storage

Precautions for safe handling

Hygiene measures

Storage conditions  
: Keep out of the reach of children. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatibles.  
: Oxidizing agents.

Incompatible materials

Not available.

### SECTION 8: Exposure controls/personal protection

Exposure controls	Exposure controls
ACGIH - recommended	ACGIH TLVA (mg/m <sup>3</sup> )
OSHA	Not applicable

ACGIH TLVA (mg/m<sup>3</sup>)

5 mg/m<sup>3</sup> (Wax mist)

Appropriate engineering controls

: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.

Hand protection

: Neoprene or nitrile rubber gloves. Heat resistant gloves are recommended, depending on the state of the material.

Eye protection

: Safety glasses or goggles are recommended when using product.

Skin and body protection

: Wear suitable protective clothing.

Respiratory protection

: In case of insufficient ventilation, wear suitable respiratory equipment.

Environmental exposure controls

: Maintain levels below Community environmental protection thresholds.

: Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefully before eating or smoking. Handle according to established industrial hygiene and safety practices.

Other information

### SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state : Liquid  
Appearance : No data available  
Colour : Semi-transparent  
Odour : None  
Odour threshold : No data available

## Safety Data Sheet

according to the Hazard Communication Standard (GHS) 1910.1200, HazCom 2012

pH	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: > 338 °F
Relative evaporation rate (butylacetate=1)	: No data available
Flammability (solid, gas)	: No data available
Exposure limits	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Vapour pressure	: No data available
Relative density	: 0.8 g/cm <sup>3</sup> (73.4°C)
Relative vapour density at 20 °C	: No data available
Solubility	: Miscible but not soluble in water
Partition coefficient: n-octanol/water	: No data available
Log Kow	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Viscosity	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available

9.2.2.2. Other information available

No additional information available

### SECTION 10: Stability and reactivity

10.1.1.1. No dangerous reaction known under conditions of normal use.

10.1.1.2. Stable under normal storage conditions.

10.1.1.3. No dangerous reaction known under conditions of normal use.

10.1.1.4. Heat, incompatible materials.

10.1.1.5. Oxidising agents.

10.1.1.6. May include, and are not limited to: oxides of carbon, oxides of nitrogen and oxides of sulfur.

### SECTION 11: Toxicological information

11.1.1. Acute toxicity : Not classified

11.1.1.1. LD50 oral rat	: > 5000 mg/kg
11.1.1.2. LD50 dermal rabbit	: > 3000 mg/kg
11.1.1.3. LC50 inhalation rat	: No data available.

11.1.1.4. Skin corrosion/irritation : Based on available data, the classification criteria are not met.

11.1.1.5. Serious eye damage/irritation : Based on available data, the classification criteria are not met.

11.1.1.6. Respiratory or skin sensitisation : Based on available data, the classification criteria are not met.

11.1.1.7. Germ cell mutagenicity : Based on available data, the classification criteria are not met.

11.1.1.8. Carcinogenicity : Based on available data, the classification criteria are not met.

11.1.1.9. Reproductive toxicity : Based on available data, the classification criteria are not met.

11.1.1.10. Specific target organ toxicity (single exposure) : Based on available data, the classification criteria are not met.

11.1.1.11. Specific target organ toxicity (repeated exposure) : Based on available data, the classification criteria are not met.

## Safety Data Sheet

according to the Hazard Communication Standard (GHS) 1910.1200, HazCom 2012

### Aspiration hazard

: Based on available data, the classification criteria are not met.

### Symptoms/injuries after inhalation

: May cause respiratory tract irritation.

### Symptoms/injuries after skin contact

: May cause skin irritation. Symptoms may include redness, drying, itching and cracking of the skin. Hot product may cause severe thermal burns.

### Symptoms/injuries after eye contact

: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

### Symptoms/injuries after ingestion

: May be harmful if swallowed. May cause stomach distress, nausea or vomiting.

## SECTION 12: Ecological information

### Ecology - general

: May cause long-term adverse effects in the aquatic environment.

### Persistence and degradability

	Not established.
--	------------------

### Bioaccumulative potential

	Not established.
--	------------------

### No additional information available

### No additional information available

### No additional information available

## SECTION 13: Disposal considerations

### Waste disposal recommendations

: This material must be disposed of in accordance with all local, state, provincial, and federal regulations. The generation of waste should be avoided or minimized wherever possible.

## SECTION 14: Transport information

### Department of Transportation (DOT)

In accordance with DOT: Not regulated for transport

### Other information

: No supplementary information available.

### Special transport precautions

: Do not handle until all safety precautions have been read and understood.

## SECTION 15: Regulatory information

### No additional information available

### No additional information available

### No additional information available

## SECTION 16: Other information

Date of issue : 07/14/2015

Other information : None.
